

Run Hill, a live sand dune, is a unique, active coastal geologic formation in Kill Devil Hills. It has been preserved and is now part of the Jockey=s Ridge State Park system.

A policy similar to the policy which follows was included in the 1993 Update and the strategies for its implementation -- also similar -- were carried out by the Town.

POLICY

The Town supports the construction and revegetation of ocean-front sand dunes and opposes the mining of inland dunes.

IMPLEMENTATION STRATEGY

The Town will continue to enforce the dune protection section of Chapter 21, Zoning, of the Town Code.

14. **Areas of Archaeological or Historical Significance**

BACKGROUND

Two archaeological sites are recorded within the Town's planning boundaries. The exact locations of these sites are not provided due to potential harm from public knowledge and subsequent disturbance of these locations. Additional records indicate one underwater, two terrestrial, and one region previously surveyed. See MAP 6.

Any proposed development or land disturbing activities within these areas should be immediately referred to the North Carolina Department of Cultural Resources.

In addition, there are three sites in Kill Devil Hills that are on the National Register of Historic Places. See MAP 6. They are:

- ! the Wright Brothers Memorial;
- ! the Wright Brothers Quarters and Hanger Building (both located on property owned by the National Park Service); and,
- ! the Kill Devil Hills Coast Guard Station (located in the vicinity of the 700 - 800 block of South Virginia Dare Trail).

A policy identical to the policy which follows was included in the 1993 Update and the strategies for its implementation -- also identical -- were carried out by the Town.
